i. **Excess of agreed tariff / Package billed by the hospital** - Package Rate means the fixed maximum charges for a Medical Treatment or Surgical Procedure or for any Follow-up Care that will be paid by the Insurer under Cover, which shall be determined in accordance with the rates provided in this Contract.

ii. **Discount from Hospital as per Contract** - A hospital discount is a reduction in a hospital's Final bill or specific bill component amount for medical treatment, surgery, diagnostic, or any other healthcare service provided. Typically, insurers/TPA offer these discounts to reduce claimants out-of-pocket expenses.

iii. **NME** - Non-admissible expenses are usually those expenses that may be a part of the hospitalization or treatment procedure but are not necessarily included in health insurance coverage due to various reasons.

iv. **Proportionate deduction** - Proportionate Deduction is a deduction applicable on 'Associate Medical Expenses', if the Insured Person opts for a higher Room than his/her eligible category.

v. **Copay** - Is a cost-sharing requirement under a health insurance policy that provides that the Insured Person will bear a specified percentage of the admissible amount. A co-payment does not reduce the Sum Insured.

vi. **Capping or sub-limit** - Means a cost sharing requirement under a health insurance policy in which the insurer would not be liable to pay any amount in excess of the pre-defined limit. The limit will be on the ailment or the procedure or a sub-limit on the sum insured.

vii. **Sum insured** - Sum Insured is the maximum amount of coverage opted for each Insured Person under the Policy with specific Period.

viii. **Usual, Customary, and Reasonable (UCR)** - Reasonable and customary clause means the charges for services or supplies, which are the standard charges for the specific provider and consistent with the prevailing charges in the geographical area for identical or similar services, taking into account the nature of the Illness / Injury involved.

ix. **Deductible** - A deductible is a cost-sharing requirement under a health insurance policy that provides that the Insurer will not be liable for a specified rupee amount of the covered expenses, which will apply before any benefits are payable by the insurer. A deductible does not reduce the sum insured.

x. **Due Premium** - The Health Insurance Premium is the amount of money need to pay periodically to an insurer in order to avail the medical coverage as well as to ensure that the policy remains in force.
